

Congress of the United States
Washington, DC 20515

March 11, 2009

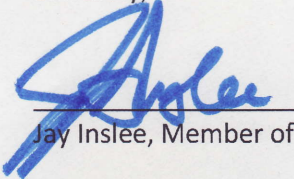

Dear Dr. Graciela Chichilnisky,

You are cordially invited to the Capitol of the United States' of America, in order to visit with and address the Congressional Members of the Sustainable Energy and Environment Coalition. Our Coalition was formed in January, 2009 to advance United States' policies promoting clean energy technology, energy independence, environmental protections, and the arresting of global warming.

Your leadership in the global community in producing policies to reduce the greenhouse gas emissions that cause global climate change, has been revolutionary. As the United States and the international community move to progress our nation and world toward a clean energy future, we look to leaders such as yourself as we work to form policies that will be environmentally and economically sustainable.

Therefore, I would like to extend to you an invitation to come to the United States' Capitol in order to address our Coalition of forty-two Members of the House of Representatives, on March 31, 2009. Please consider joining your friends in Washington, D.C. Thank you.

Sincerely,

Jay Inslee, Member of the United States House of Representatives
