Aims and Scope: The journal is concerned with extending and integrating the study and management of 'nature's household' (ecology) and 'humankind's household' (economics). This integration is necessary because conceptual and professional isolation have led to economic and environmental policies that are mutually destructive rather than reinforcing in the long term. The journal is transdisciplinary in spirit and methodologically open.

Specific research areas covered include: valuation of natural resources, sustainable agriculture and development, ecologically integrated technology, integrated ecologic-economic modelling at scales from local to regional to global, implications of thermodynamics for economics and ecology, renewable resource management and conservation, critical assessments of the basic assumptions underlying current economic and ecological paradigms and the implications of alternative assumptions, economic and ecological consequences of genetically engineered organisms, and gene pool inventory and management, alternative principles for valuing natural wealth, integrating natural resources and environmental services into national income and wealth accounts, methods of implementing efficient environmental policies, case studies of economic-ecologic conflict or harmony, etc. New issues in this area are rapidly emerging and will find a ready forum in Ecological

Economics. The journal includes full-length research articles, reviews and survey articles, short research notes, books, reviews, short correspondence, and news items.

Submission of papers: All manuscripts should be submitted electronically through Elsevier Editorial System (EES) which can be accessed at <http://ees.elsevier.com/ecolec>.

If you are not able to submit your paper to ECOLEC electronically please contact Anne Carter Aitken, Managing Editor at anne.aitken@earthlink.net.

Author enquiries: For enquiries relating to the submission of articles (including electronic submission) please visit this journal's homepage at <http://www.elsevier.com/locate/ecolec>. For detailed instructions on the preparation of electronic artwork, please visit <http://www.elsevier.com/artworkinstructions>. Contact details for questions arising after acceptance of an article, especially those relating to proofs, will be provided by the publisher. You can track accepted articles at <http://www.elsevier.com/trackarticle>. You can also check our Author FAQs at <http://www.elsevier.com/authorFAQ> and/or contact Customer Support via <http://support.elsevier.com>.

Language (Usage and Editing services) Please write your text in good English (American or British usage is accepted, but not a mixture of these). Authors who feel their English language manuscript may require editing to eliminate possible grammatical or spelling errors and to conform to correct scientific English may wish to use the English Language Editing service available from Elsevier's WebShop <http://webshop.elsevier.com/languageediting/> or visit our customer support site <http://support.elsevier.com> for more information.

Publication Information: *Ecological Economics* (ISSN 0921-8009). For 2013, volumes 83–94 (12 issues) are scheduled for publication. Subscription prices are available upon request from the Publisher or from the Elsevier Customer Service Department nearest you or from this journal's website (<http://www.elsevier.com/locate/ecolec>). Further information is available on this journal and other Elsevier products through Elsevier's website (<http://www.elsevier.com>). Subscriptions are accepted on a prepaid basis only and are entered on a calendar year basis. Issues are sent by standard mail (surface within Europe, air delivery outside Europe). Priority rates are available upon request. Claims for missing issues should be made within six months of the date of dispatch.

Orders, claims, and journal enquiries: please contact the Elsevier Customer Service Department nearest you:

St. Louis: Elsevier Customer Service Department, 3251 Riverport Lane, Maryland Heights, MO 63043, USA; phone: (877) 8397126 [toll free within the USA]; (+1) (314) 4478878 [outside the USA]; fax: (+1) (314) 4478077; e-mail: JournalCustomerService-usa@elsevier.com

Oxford: Elsevier Customer Service Department, The Boulevard,

Langford Lane, Kidlington, Oxford OX5 1GB, UK; phone: (+44) (1865) 843434; fax: (+44) (1865) 843970; e-mail: JournalsCustomerServiceEMEA@elsevier.com

Tokyo: Elsevier Customer Service Department, 4F Higashi-Azabu, 1-Chome Bldg, 1-9-15 Higashi-Azabu, Minato-ku, Tokyo 106-0044, Japan; phone: (+81) (3) 5561 5037; fax: (+81) (3) 5561 5047; e-mail: JournalsCustomerServiceJapan@elsevier.com

ISEE members subscription information: Discounted Subscriptions information: Members of the International Society for Ecological Economics (ISEE) qualify for substantially discounted rates on this journal. For membership information and individual prices, please contact ISEE, Attention: Anne Aitken, 15 River Street #204, Boston, MA 02108, USA. E-mail: anneaitken4@gmail.com

Advertising information: If you are interested in advertising or other commercial opportunities please e-mail Commercialsales@elsevier.com and your enquiry will be passed to the correct person who will respond to you within 48 hours.

Funding body agreements and policies

Elsevier has established agreements and developed policies to allow authors whose articles appear in journals published by Elsevier, to comply with potential manuscript archiving requirements as specified as conditions of their grant awards. To learn more about existing agreements and policies please visit <http://www.elsevier.com/fundingbodies>

ECOLOGICAL ECONOMICS HAS NO PAGE CHARGES

The International Society for Ecological Economics

An increasing awareness that our global ecological life support system is endangered is forcing us to realize that decisions made on the basis of local, narrow, short-term criteria can produce disastrous results globally and in the long run. We are also beginning to realize that traditional economic and ecological models and concepts fall short in their ability to deal with global ecological problems. Ecological economics is a transdisciplinary field of study that addresses the relationships between ecosystems and economic systems in the broadest sense. The International Society for Ecological Economics (ISEE) is a not-for-profit organization established in 1988, and now has over 1200 members in 60 countries. The society encourages attempts to integrate and synthesize many different disciplinary perspectives in order to achieve an ecologically and economically sustainable world.

USA mailing notice: *Ecological Economics* (ISSN 0921-8009) is published *monthly* by Elsevier B.V., (Radarweg 29, 1043 NX Amsterdam, The Netherlands). Periodicals postage paid at Jamaica, NY 11431 and additional mailing offices.
